Miniature or Lilliput Iris

We take great pleasure in offering for the first time in the Upper Midwest, a complete line of the brand new and fascinating miniature iris. The colors of these entrancing garden gems are indescribably clean and the form is comparable to that of the most desirable of the tall bearded varieties. Having two or more buds to each stem, their regular season of bloom is considerably longer than that of the other dwarf varieties. They range in height from 10" to 15" and are completely hardy.

HEMEROCALLIS (Daylilies)

Hemerocallis are among the easiest of all perennials to grow as they require no special attention and are completely hardy. As they bloom during July and August when few other perennials are in flower, they are especially valuable for the border. The foliage is very glossy and attractive and the blossoms are large and clean of color. Daylilies are shipped in early September. The minimum order that can be accepted, exclusive of any iris order, is \$ 3.50. All roots will be sent postpaid.
